

ASK YOUR DOCTOR.. QUESTIONS THAT NEED TO BE ASKED...

1- _____ surgery, am I a suitable patient for this surgery?

2- What kind of anaesthesia (general anaesthesia, local anaesthesia, spinal anaesthesia etc.)?

3- If you have a special disease (diabetes, heart disease, blood pressure, blood disease, goitre, AIDS, hepatitis, etc.) or medication you take continuously, inform your doctor and ask about the interactions with your surgery.

4- In which hospital will my surgery be performed? Is there an intensive care unit in the hospital just in case?

5- Is there any preparation I need to do before the operation? Will I have to starve before the operation?

6- If silicone implants will be used in my surgery (breast augmentation, buttock augmentation, calf aesthetics), will you give the ID card of the implants after the surgery?

7- In this surgery, will a drain be placed in the operation area? If a drain is placed, after how many days is it removed?

8- Will I be hospitalised after the surgery?

9- If my hospital stay is prolonged, will there be additional costs due to additional hospitalisation?

10- Will you give me the operation report, epicrisis report and my analysis results after the operation?

11- Will I see you when I am discharged? Will you do my follow-up?

12- How many days will it take me to recover after the operation, after how many days will I return to work? After how many days can I do sports, after how many days can I have sexual intercourse?

13- How many days will my first check-up be?

14- What is the surgery fee? Does this fee include the materials to be used in the operation (silicone implant, corset, etc.) and hospital expenses? Are my controls included in the fee?

15- Let's say that a complication occurred at the end of my surgery and I will need a revision surgery in the future; will I have to pay the surgery fee again, or should I only cover the hospital costs?

16- I will be travelling by plane after my surgery and first control. Can you give me a letter stating that I can travel by airline?

17- Can I see pictures and videos of your patients about this surgery?

NOTES (if there are any other questions you want to ask, please take a note here):
